Ample Electric, Inc. is both a unionized electrical contractor and a general engineering firm, offering a wide range of civil and electrical services across Northern California. Established in 2009, our workforce consists of over 35 highly skilled and well-trained personnel in the electrical and civil sectors, complemented by an additional 8 professionals in supporting roles, all committed to ensuring project excellence. Ample Electric, Inc. is a certified Minority Business Enterprise (MBE) and Disadvantaged Business Enterprise (DBE) with the expertise and capacity to undertake substantial civil and electrical projects, contributing significantly to the achievement of your Good Faith Effort objectives.

#### WHAT WE OFFER

## OUR CIVIL SERVICES

### Undergrounding Division

We have three dedicated teams and owned equipment supporting PG&E and its partners in their ambitious 10,000-mile undergrounding initiative. Our team possesses recent and pertinent expertise in successfully transforming overhead electrical lines into underground infrastructures. Our in-house tasks encompass trenching, laying PVC conduits, backfilling, managing off-haul operations, installing enclosures and pads, overseeing traffic control, temporary paving, BMP placement, and contributing to the removal of archaeological artifacts. Ample Electric, Inc. fully comprehends and rigorously adheres to PG&E's safety policy while consistently delivering exceptional quality.
